

Vikan

Microfibre Catalogue

Where some say
"your work",
we say
"your purpose".

A different set of eyes

When Vikan visits a food processing plant, we see it through a different set of eyes. Where some see equipment and raw materials, we see risks and opportunities. Where some see brushes, brooms and mops, we see solutions to hygiene challenges. Where some say "your work," we say "your purpose." Because people who clean these facilities or otherwise work with hygiene are on the front line of keeping our food a delight to serve and safe to eat.

At Vikan we've been looking at food and beverage plants and other hygiene-sensitive environments in this way since 1898. Through integrity, diligence, ingenuity and drive, we've amassed the industry's biggest bank of hygiene and regulatory insight.

Based on this insight, we've developed the world's most effective professional range of cleaning tools and advisory services. All to make sure that you can deliver each and every product you manufacture with pride and confidence.

Brushes

Vikan offers a very wide range of highly effective, durable brushes and brooms in various shapes and sizes for use in a multitude of applications in every industry setting. There are brushes for food and beverage applications, general cleaning, and vehicle cleaning, in a range of highly specialised designs.

Our brush and broom range includes several Ultra Safe Technology (UST) products, which feature hygienic design making them suitable for use in high-risk environments.

- All brushes and brooms are designed with ergonomics in mind from the dimensions of their handle to the angle of their bristles.
- A wide range of bristle options are available including short, long, split, soft, medium, hard, mixed, heat resistant, and angle cut making it possible to find a brush or broom that meets your needs.
- Scrubbing brushes and brooms are ideal for wet or dry cleaning of stubborn dirt
- Soft brooms are ideal for sweeping powders and other loose dry material.
- Some brushes and brooms are also available as water-fed options.
- Easy-to-clean UST brushes reduce the risk of contaminant build-up on the cleaning tools themselves.

Handles

Every head needs a handle and at Vikan our range of handles is nearly as comprehensive as the heads they are designed to fit on to. Whether you need a plastic, stainless steel, aluminium or wooden handle, or one that's hygienically designed, short, long, telescopic, water-fed, or colour-coded, we are sure to have one that suits your needs.

- Ultra Hygienic handles, primarily designed for use with the Colour-coded product range, are available in a range of colours, and lengths, are fully moulded and easy to clean. The Ultra Hygienic handles compliment the UST broom range and Ultra Hygiene squeegees perfectly.
- The Ultra Hygienic Mini handles are ideal for use with any hand held Vikan product.
- The lightweight, ergonomically designed aluminium handles minimise the risk of occupational injury and the water-fed versions feature quick-release hose connections and insulated sleeves for a comfortable grip. Suitable for use with our Colour-coded, Microfibre and Transport product ranges.
- The ridged stainless steel handles are strong, durable, chemical resistant and suitable for use with our Colour-coded products.
- The flexible stainless-steel and nylon handles mounted on our twisted wire brush heads facilitate cleaning of curved pipework.
- Telescopic handles enable cleaning at height of remote surfaces more easily and effectively.
- Vikan's top adjustable handle, featuring a button on the handle head that allows quick and easy adjustment of the handle length, is uniquely designed for use with our Microfibre product range.
- Our traditional high quality wooden handle range are exclusively designed for use with our Classic range of products.

Mop frames

Vikan mop frames are suitable for a wide range of industries and specific applications. Our hook-and-loop frames are designed for use with ergonomic Vikan handles to clean floors, walls, ceilings, boards and tables. Vikan pocket mop frames feature a patented mop release system that eliminates the need to handle dirty mops manually.

- Hook-and-loop mop frames feature easy-snap, exchangeable end pieces.
- Pocket mop frames eliminate the need to handle dirty mops.

Mops & cloths

With unique cleaning properties that remove up to 99.9% of bacteria, Vikan microfibre mops and cleaning cloths are the industry standard. Thanks to microfibre technology, our damp and dry mops reduce the need for chemicals. Our damp mops absorb dirt and grease through capillary action. Dry mops pick up even the tiniest dust and dirt particles through electrostatic attraction. Used both damp and dry, our DampDry range offers maximum cleaning flexibility.

- Different mops available for both lighter and heavier soils.
- Window mops enable efficient cleaning and polishing of high-gloss surfaces, including glass, metal and ceramic surfaces.
- Cloths attract dirt and use capillary action or electrostatic attraction to draw in and lock the dirt in the cloth.
- Effectively decontaminated using a washing machine. Microfibre mops come with a 500-wash and use guarantee.
- Wide range of Eco Swan-labelled microfibre mops and cloths.

Kits

Vikan offers a range of different cleaning kits for specific applications. The EasyShine Kit can be used for cleaning windows, mirrors, white boards, ceramic tiles, stainless steel and other high-gloss surfaces. Our Easy Hi Dust Microfibre Kit cleans up to 3-metres high with static electricity and a flexible head. The Campaign Set and the Transport set feature vehicle brushes with water-fed, telescopic aluminium handles.

- All you or your customers need in one convenient kit.
- A great way to get started with Vikan products.

Microfibre concept

Vikan supplies high-quality microfiber mops and cloths, plus dustpans, trolleys and more to make cleaning easier and more efficient for restaurants, hospitals, schools, supermarkets and other public buildings.

The Vikan Microfibre range was specially developed to enable you to clean more effectively and control bacteria with less effort.

Vikan microfibre products are manufactured at our own facility in Estonia, so we are able to ensure consistently superior quality.

VISSING FONDEN

Vissing Foundation

Owned by the Vissing Foundation

Vikan is ninety percent owned by the Vissing Foundation, a charity established in 1979 by former Vikan owner Mogens Vissing and his wife Jenny.

The Vissing Foundation funds important research in cancer and diabetes treatment, with an emphasis on devices, diagnostic methods, treatment approaches, data analysis and other areas that directly affect patient health and wellbeing. The foundation's work is a source of pride for all of us in the Vikan family.

Get in touch

Your local Vikan Distributor is ready and very well equipped to meet your every need for Vikan products, services, and up-to-date expert knowledge and advice.

Vikan Distributors maintain an exceptionally close relationship with Vikan. They take part in regular training initiatives, and they are happy to offer guidance on what products to use, how to use them effectively, and how to keep auditors and other authorities not just satisfied, but impressed with, your operation.

No matter where in the world you do business, you'll find a Vikan Distributor nearby.
